No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                            408

Þ and B chains 얁 subcomponent

C;Comment: The first component of complement is a calcium-dependent complex of the the ivation of C1r (enzyme), C1s (proenzyme), and the other eight components of complement C;Comment: The C1q subcomponent is composed of nine subunits, six of which are disult (see PIR:C1HUQC) chain. Equimolar amounts of the A, B, and C chains are found after:

A; Map position: 1936.3-1934.1 C; Superfamily: complement subcomponent Clq chain A; complement Clq carboxyl-terminal

RT demonstrate that type VIII collagen is a short chain collagen and demonstrate that type VIII collagen is a short chain collagen and recontains triple-helical and carboxyl-terminal non-triple-helical recontains similar to those of type X collagen.";

RT domains similar to those of type X collagen.";

RI J. Biol. Chem. 264:16022-16029(1989).

CC -i. FUNCTION: MAJOR COMPONENT OF THE DESCEMET'S MEMBRANE (BASEMENT CC MEMBRANE) OF CORNEAL ENDOTHELIAL CELLS.

CC -i. SUBUNIT: MAJOR COMPONENT OF THE DESCEMET'S MEMBRANE (BASEMENT CC SUBUNIT: MAJOR COMPONENT OF THE THETROTRIMERS IN ASSOCIATION CC INTH ALPHA 2 (VIIII) TYPE COLLAGENS.

CC -i. SUBUNIT: MAY FORM HOMOTRIMERS, OR THE TRIPEPTIDE REPRATING COLLAGENS.

CC -i. MISCELLANEOUS: FOUR CONSECUTIVE GLY-PRO-PRO TRIPLETS ARE PRESENT CC INTER C-TERMINUS OF THE TRIPLE-HELICAL REGION. THESE MAY PROVIDE CLISTING AND THE TRIPLE-HELICAL REGION.

CC -i. SIMILARITY: STRONG, TO ALPHA 2 TYPES VIII AND X COLLAGENS.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      01-JAN-1990 (Rel. 13, Created)
